Our safe travel portal custom designed for you, your staff and your guests

International travelling guests face a variety of increasing risks when travelling around the world. Ensuring your guests receive the very best care and attention is paramount to both your profitability and reputation.

An app specifically designed for the international traveller

Aon's WorldAware Solutions country risk information app is specifically designed for the international traveller.

- Key features include:**
- Real-time risk information available online and via mobile apps thereby helping reduce personal vulnerability when travelling
 - Demonstrates a duty of care in a world that presents an increasingly high risk environment for the international traveller
 - Provides a value added service to hotel guests and staff
 - Informs on every country's security situation and provides essential business and travel safety advice including visa and medical information
 - Offers the ability to view and understand the potential risks associated with global travel plans

A portal for easy access worldwide

The app can also be made available to hotels via a bespoke **safe travel portal** page on which travellers may register for further benefits and offers.

- The portal provides:**
- Travel alerts for planned destinations including security and weather
 - The ability for hotels to add buttons of interest to their travelling public, for example Foreign and Commonwealth or US State Department websites
 - Licensing to access WorldAware GeoAlert, a real-time visual pulse on global security and environmental threats to an organisation's people and assets in specific destinations
 - Personalised risk assessments and access to 24/7 specialist crisis support and incident management to help with incidents both in the UK and worldwide

Potential additional revenue

Offering this value added service has the potential to
