Because the shelf life of this product is relatively short, just pop it in your freezer and pull out handfuls at a time. It thaws quickly and dogs still love it frozen – it just acts as a dental treat!! That way, there is no waste and it keeps easily for 3+ months in a freezer. Once thawed, always keep in a fridge under 5°C to keep fresher for longer – up to 7 days.

Orders are cooked within a few days of receiving them. You will then be contacted via phone or email to arrange collection/delivery.

Delivery charge: £5.00 within a 10-mile radius.

Free delivery on orders of 4+ batches within a 10-mile radius.

“Having struggled for years with behavioural training, the treat is so delicious for my dogs it now beats any
